#### Home

Welcome to my Portfolio website

Hi I'm Zaid from Jordan & i'm

a Full Stack Web Developer

#### About

#### Zaid Amer Al-Sabbagh

Hi, I'm Zaid, a 27-year-old passionate about computers and programming. Although my academic background is in Accounting, having studied at Philadelphia University, my true fascination has always been with technology.

#### My Journey

My programming journey began a year ago when I started learning Python through an excellent online course on Udemy, taught by the renowned Dr. Angela Wu. Through this course, I developed a solid foundation in Python and completed several impressive projects.

#### **Exploring Web Development**

Driven by a curiosity to understand how web pages are created and a desire to build one for myself, I embarked on learning web development. I began with an online course and later joined the Orange Coding Academy to further hone my skills. Now, I am dedicated to expanding my knowledge and expertise in web development.

#### Skills

Details about the skills I aquire.
